**SCHEDA NEW PLATINUM PI4 EDITION**
La seguente lista elenca la maggior parte dei titoli emulati dalla scheda NEW PLATINUM Pi4 (20.000).

- I giochi per computer (Amiga, Commodore, Pc, etc) richiedono una tastiera per computer e talvolta un mouse USB da collegare alla console (in quanto tali sistemi funzionavano con mouse e tastiera).
- I giochi che richiedono spinner (es. Arkanoid), volanti (giochi di corse), pistole (es. Duck Hunt) potrebbero non essere controllabili con joystick, ma richiedono periferiche ad hoc, al momento non configurabili.
- I giochi che richiedono controller analogici (Playstation, Nintendo 64, etc etc) potrebbero non essere controllabili con plance a levetta singola, ma richiedono, appunto, un joypad con analogici (venduto separatamente).

- Questo elenco è relativo alla scheda NEW PLATINUM EDITION basata su Raspberry Pi4.
- Gli emulatori di sistemi 3D (Playstation, Nintendo64, Dreamcast) e PC (Amiga, Commodore) sono presenti SOLO nella NEW PLATINUM Pi4 e non sulle versioni Pi3 Plus e Gold.
- Gli emulatori Atomiswave, Sega Naomi (Virtua Tennis, Virtua Striker, etc.) sono presenti SOLO nelle schede Pi4.
- La versione PLUS Pi3B+ emula solo 550 titoli ARCADE, generati casualmente al momento dell'acquisto e non modificabile.

Ultimo aggiornamento 2 Settembre 2020

| NOME GIOCO | EMULATORE |
|---|---|
| 005 | SALA GIOCHI ARCADE |
| 1 On 1 Government [Japan] | SALA GIOCHI ARCADE |
