

HERCULES

Silver fan

low speed and noise
high airflow / belt transmission

DIMENSIONS:

Diameter 78", 1981 mm'
Width 13", 330 mm'
Motor and Pulleys length 16.9" 430 mm'
Weight 170 kg'

CONSTRUCTION MATERIALS:

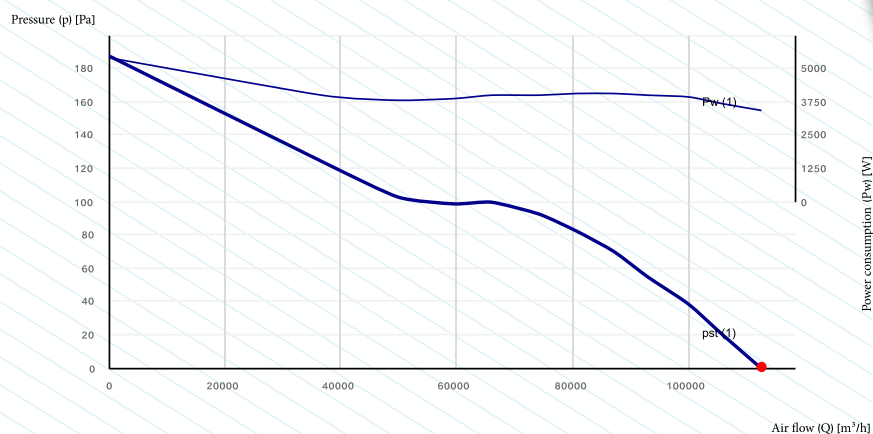

Fan body made of steel SAE-1020, with 2mm' hot galvanized treatment.
Four electrical poles 3 HP or 1.5 HP motor.
Front, rear and pulleys protection nets.

AIRFLOW:

With 3 HP motor (2.2 kwh) 113,000 m³/h.
With 1.5 HP motor (1.1 kwh) 83,000 m³/h.

PLATINUM FAN:

- Driven by pulleys, belt, shaft and bearings.
- Wing mounted on the shaft between two bearings.
- Easy maintenance and service.
- High electrical efficiency.
- Highly balanced aerodynamic fan blades.
- Excellent corrosion resistance.

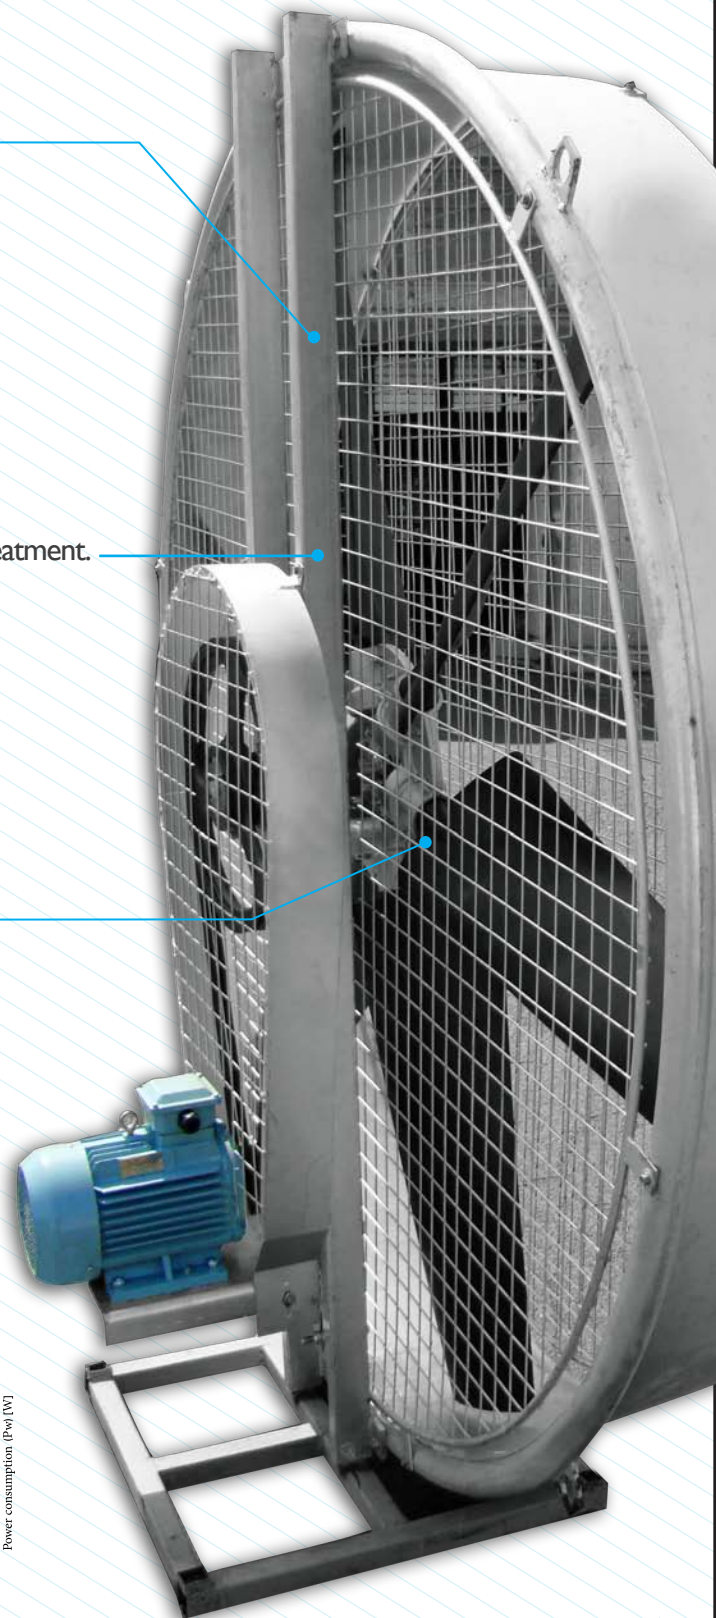

pst=Static pressure Pw=Power consumption

WingFan SELECT 6 - version 1.2.5.1
