From the Editor

September seems to have been a busy month for the club. An excellent demonstration by Pat Hanley at the beginning of the month and the Festival of Crafts half way through the month.

I have received lots of articles from members for inclusion in this newsletter and I hope that trend will continue, but for now I would like to express my thanks to those who did contribute a few words and pictures.

The Christmas party will soon be upon us and I would like to draw your attention to the advance notice on page 17 regarding the competition pieces. Time to get turning!

Now I have been asked to give you this **very important information**. There is a new Number plate recognition system installed at Coombe and all members who attend the workshop will have to register their vehicle number again, only one number per person is allowed. You are reminded that this free car parking concession only applies when you are visiting the workshop so please do not abuse the system as it could cause the club to lose this valuable facility. Existing vehicle registrations will not be transferred from the old system to the new one, so please re- register your vehicle.

Graham

Chairman's Jottings

I would like to start my jottings by thanking each and every person connected with "The Festival of Crafts" who worked hard all year to get this event organised.

One point I would like to make; that the members didn't support the Festival in assisting with erecting and taking down of all the equipment when we needed help the most. This is not a separate club at the Festival of Crafts, this is our club that raises lots of funds for us as a whole.

I sadly couldn't get there myself due to illness, but I am really dismayed they couldn't raise assistance from other members.

I feel that if the numbers don't increase at our demonstrations which we hold throughout the year then they will have to stop as the club is losing money on them. Please try and support us at these demo's as it would be a great loss to us.

Two demo's for your diaries are:- October 3rd at Shilton and October 12th at the Baptist Church. Baked Potatoes and bacon Butties for your snacks at the Baptist Church.

Let's see if we can get bums on seats.

We will now be looking for numbers for the "Christmas Party" so please let either Janine Brindley or Marlene Whittle know that you are coming, their contact details are on page 2 of this Newsletter. This is a great day where I hope to see you all.

The lathe we had on trial in the workshop developed a serious electrical problem and has been returned, but hopefully we shall have it back in the near future.

I'll sign off now, so please keep turning and keep well.

Brian.

Brian Edwards

Festival of Crafts Review

By
Jill Steedman

So another successful weekend for the Festival of crafts has been and gone, we were blessed with excellent weather this year.

We had the show opened by the lady Mayoress of Coventry, who also enjoyed a walk round chatting to the stall holders.

I am pleased to say it was more popular again this year, the feed back forms we handed out to the stall holders came back with positive results and also some good ideas for next year's show.

I would like to take this opportunity to thank our team of volunteers who give up their time, not just for the weekend but through out the year to make the show possible. Watch this space for more on next year's show and for the figures of how much was raised this year.

Jill Steedman

oOo

The 50/50 workshop draw raised £84.50 this month.

The winning Ticket **892** received **£42.25** and **£42.25** went into the lathe fund. The winning ticket was drawn by Stacey a staff member at Coombe Abbey Park Cafe.

Just a reminder to all members you can be in with a chance of winning. It's a maximum of one ticket per member per visit. You have to come into the workshop to buy a ticket.

Put 50p in the collection box, take your ticket, write your name on the ticket left in the book, and wait till the end of the month. Half the money goes to the winner and half to the lathe fund. Good luck to everyone.

oOo

One Line Philosopher:

No matter how much it hurts, failure today just shows you a challenge for tomorrow.

This Months Sponsor

I would like to welcome Proops Brothers and thank them very much for agreeing to sponsor this months Newsletter.

I myself have bought items from the company on the many occasions that I have seen them at Shows around the country and can honestly say that I have been very pleased with my purchases most of which I use on a regular basis. I can thoroughly recommend them for quality and price.

Please support our sponsor by purchasing their products and don't forget to tell them that you appreciate their sponsorship of our Magazine.

Editor

Proops Brothers - A Company Profile.

In 1946 the Proops family opened a shop on Tottenham Court Road in London. They traded in war surplus items as well as clearance and job lot lines. Their main products were medical equipment and technical items. Many of our customers now youthfully middle aged can remember being taken there by their fathers and uncles sparking their interest in dabbling. The Proops family sold the business to Linic Plastics Ltd aka the Burdett Family in the late 1980's and the whole stock was transferred to the present site in Fleckney, Leicestershire. There is still a shop to browse around with even more odd things to interest many and confuse some.

Proops Brothers LTD now specialise in craft, hobby, woodwork and DIY tools, all of which are at great affordable prices and many are Manufactured here on site in Fleckney Leicestershire by our Parent company Linic Products Ltd We offer a variety of products so please have a look and if you have any questions please do not hesitate to ask us !

A Demonstration by
Patrick Hanley

At

Shilton Village Hall on Thurs 5th Sept 2019

Report and pictures by Graham Ball

I was very much looking forward to this demonstration by our own club member Pat Hanley. Pat has a reputation for turning first class fruit and on this occasion he decided to first turn an apple and then

An attentive audience

Pat at work on his fruit bowl

a fruit bowl. Unfortunately on the night I did not get any good photos of the process of turning the apple so I have borrowed some pictures of Pat turning fruit on a later date in the workshop, Friday 20th September to be precise. I will not attempt to do a blow by blow description of Pat's technique but I am sure the photos will be invaluable in showing this. A piece of wood was placed between centres and turned to a cylinder and a spigot formed. This then was placed in the chuck and the

Pat Hanley's screw chuck

apple turned with the bottom half facing the tail stock end of the lathe. A small hole was drilled which would later take a clove but before that would enable Pat to hold the apple on a screw chuck so that he could finish the stalk end of the apple.

All this done Pat sanded and finished

The finished Apple and Fruit Bowl

the apple to a super hi gloss finish.

Next it was time to make the bowl and Pat turned the base and then the inside of the bowl. Unfortunately I had to leave at this point half an hour before the finish but Pat has kindly supplied me with a photograph of the finished fruit bowl to publish in this Newsletter.

I enjoyed this meeting very much not only to watch the excellent demonstration but to meet other club members and catch up with the news.

My thanks go to Len Owen for setting up the equipment and operating the cameras; you did a great job Len. I enjoyed a nice cup of coffee and a biscuit at break time and I am sure everyone else did too, please spare a thought for those members who worked in the kitchen to ensure our needs for refreshment were met.

INTRODUCING THE NEW REVOLUTION

The "revolution" is a completely new hollowing system from the world leaders in fine turning tools. From its beautifully weighted handle to its cryogenically treated cutting tips the "revolution" is designed to be the finest hollowing tool on the market.

The modular articulated design allows the woodturner the freedom and flexibility to configure the tool for any situation. From straight vases to heavily undercut hollow forms the "revolution" has it covered.

At the heart of the "revolution" is the new fully depth adjustable "super ring" the revolutionary design of the "super ring" ensures clean efficient wood removal at all times with 5 different cutting tips and modular articulation design the revolution is a must have tool for all woodturners.

- Supplied with 5 different cutting tips for unrivalled flexibility.
- Clever modular design allows for many different configurations.
- All collars and collets beautifully machined from solid "marine grade" brass billet.
- High performance cryogenically treated cutting tips for vastly improved wear resistance.
- New adjustable "Super ring" allows ultra efficient wood removal without clogging.
- Slim line articulated tip design for unrestricted access to those hard to reach cuts.
- Expandable.
- Hand made in Sheffield, England.

An Update on Club Activities

By
Eric Taylor

It is quite awhile now since I last wrote any update on club activities both at the workshop and elsewhere, first of all let me say the workshop is still functioning and is the source of our new members, young and older, male and female, yes we have a few ladies on the register and also a few youngsters who are generally quite keen.

The workshop is now open Sundays a.m. Tuesday 10 until 4.00 for teaching, it is also open on Wednesdays, Thursdays and Fridays always depending if there are enough members needing it. We do also run any special training on Mondays and Thursdays when requested.

Then of course there are the days when we are displaying our expertise elsewhere, for example the regular Monks Kirby, or Godiva and in the last two years Bedworth Park, there are also Charnwood open days, where we see a number of you visiting even if it is free barbecue, then of course nearer to home we get requests from Axminster at Nuneaton to do a show, which seem popular with the general public.

The main function of the club are the arranged Thursday evenings at Shilton and the Saturday day meetings at Walsgrave, these seem to be a little less popular, yes we have regular members coming but numbers are dwindling, I for one miss seeing all of you that have been in the past, many of you I have known for quite awhile and it would be nice to see you now and then. I cannot deny it would help with finances, the fees for the hire of the rooms has gone up also the cost of the demonstrators, very often these have to be subsidised out of club funds, which isn't good news. The average number of members at the meetings used to be 50/55 but of late we are sometimes down to 35. I know some of us are getting older and do not like venturing in the evenings, but it would be nice to see you. I know that I have resigned as the club treasurer but I am still on the committee and working for the good of the club, as all the committee are doing. So please come and support us at the arranged meetings.

The next meeting is on Saturday 12th October at the Walsgrave Baptist Church. Demonstrator is Andy Coates.

My best wishes to you all and look forward to seeing you at the next meeting.

Dilemma

What do you get for the man that has everything?

Recently it was Jim's (big O) birthday. We planned a party and invited friends and family to join us in our celebration. Other than spending time with people there was nothing he wanted for himself. Jim decided to give everyone who was invited the option to make a contribution to the Coombe Abbey Lathe Fund. We cannot thank our friends and family enough for their generosity, we are still receiving gifts, but to date we have more than £600 to put towards the fund.

Thank you to everyone who gave and thank you for a fantastic night we had a lovely time. Janine and Jim.

————— oOo —————

Annual Raffle Report

This year it went well even without our members chipping in, apart from the yearly hand full of members that always sell tickets, thanks to those people. It's a shame that the rest of the members don't help, if each member took two books we would have been on track for selling them all. We only had 60 books left in the end. Pause for thought if you help it would help the air ambulance and club at the same time.

Alec Steedman

Colin Grundy

————— oOo —————

A Demonstration by Andy Coates

At

Walsgrave Baptist Church On Saturday 12th October 2019

10.00am to 4.00pm approx

"Andy Coates is full-time professional wood turner who lives and works in Suffolk in the market town of Beccles. Andy writes for Woodturning magazine, teaches, demonstrates to woodturning and woodworking clubs and at several private activity event clubs in the UK. Andy will be a presenter at the 2020 Irish Woodturners' Guild Symposium in Killarney, Co. Kerry.

Andy turns anything and everything and is as likely to be turning a replacement tool handle, restoring antique furniture, turning in batches or making speculative decorative work to sell.

After a workshop fire in December 2016 a new workshop was opened on an old WWII USAF Officers' camp beside an old airfield close to where he lives. The move was temporary to provide somewhere to restore and repair equipment and consolidate after the loss of tools, equipment and wood stock. Andy is still there two and half years later...there's far too much stuff to move again...

In view of the short notice I'll need some time to consider what I will be turning on the day...but I make every effort to provide four projects during the day that will appeal to all skill levels."

THE MAIL ORDER ABRASIVE SPECIALISTS

Sanding needs as much care as construction and design. As much care needs to be taken in sanding as in the construction of a piece of work. A few minutes poor sanding technique can irreversibly destroy great craftsmanship and many hours work.

THE ULTIMATE ABRASIVE! RB406 J.FLEX. TRIAL PACK

1M OF CLOTH IN EACH OF THE FOLLOWING GRITS.

P80, P120, P240 AND P320 **£14.75** INC VAT ORDER CODE **12806 RB406**

J.Flex is the best abrasive for every workshop. It's ideal for turning, woodworking and metal working. The distinctive blue abrasive the yellow backing is the softest and most flexible abrasive we have ever discovered. The ultimate abrasive for all kinds of woodworking, especially sanding in acute areas. This cloth can be twisted and folded without grain dis-adhesion. Rolls are 100mm wide. **ALSO AVAILABLE BY THE METRE.**

VELCRO-BACKED ROLLS.

TRIAL PACK 1M OF P100, P150, P240 AND P320 PLUS A SAMPLE STRIP OF VELCRO REPLACEMENT WITH PEEL OFF SELF ADHESIVE BACKING. **£14.75** INC VAT ORDER CODE 13159 ALSO AVAILABLE BY THE METRE. PLUS - IT PAYS TO BUY BIG.

WITH OUR BULK RATE PRICES YOU'LL SAVE MONEY ON THE GRITS YOU USE

Cut off any length to suit your own sanding application. Every workshop should have at least two or three grades of this to hand. Especially manufactured by Hermes abrasives for us. Ideal for those shop made sanding devices which you can now make to your own specification. Hook and loop, or velcro attachment does away with the unpleasant task of clamping the paper to the machine, allows rapid changing of the sheet and encourages the use of more grits extending the finish quality and life of the abrasive. Rolls are 115mm wide.

Activities in the Workshop

It was Sunday 1st September and to give the Chairman a rest coming to the workshop, I stepped in his place on overseeing the workshop and opening up for that day. There were two youngsters coming in for lessons, which I'm glad to say they had lessons before. Their names are Finlay and Teegan Hornshaw, brother and sister, two fine children. We got off to a slow start with Finlay as the tutor didn't turn up, these things are out to test us so it looked like I was up to teach him. Finlay had brought

Teegan at the lathe and showing her very nice bowl

a box in where the lid wasn't fitting right I said yes I can see. Then the door opened and there stood a figure of a man that can teach, it was Jim Lomas I

Finlay at the lathe and showing his lidded box with finial

asked if he could help this young man out he said yes. So we were all set and running. With Jim Lomas and Don Kildin at the helm for teaching. The youngsters were taking every thing in, Teegan was full of beans, but they did really well even cleaned up after them not like some of our members. I was engaged in a conversation with the parents and dis-

covered that the granddad was the first one to come to the club to have lessons but he hasn't been well for some time, we wish him well. As they say another day at the office.

Introducing the Brand New Range of Woodturning Chucks and Jaws

We are extremely proud to introduce the brand new range of Record Power woodturning chucks and jaws. This exclusive new range has been developed using Record Power's extensive experience and knowledge of woodturning in conjunction with a group of highly experienced professional and hobby woodturners, to bring you the ultimate in quality, versatility and value.

Precision Engineered Gears

Super Geared True-Lock™ technology ensures high levels of accuracy to provide smooth and solid operation.

Jaw Fixing System

The SC3 and SC4 feature a jaw fixing which will not only fit the Record Power series of Jaws but is also fully compatible with Nova and Robert Sorby brand jaws.

Heavy Duty Jaw Slides

The improved and enlarged jaw slides give unsurpassed holding power and load bearing ability. They are made from high tensile steel, reinforced with nickel and copper and heat-treated to ensure superior strength.

Sealed Backing Plate with Full Indexing

The SC4 features a strong backing plate to protect the gear mechanism from dust and 72-point indexing around the full circumference.

Brand New Exclusive Jaw Range
Fully compatible with Nova brand chucks

In Store Demonstrations at **Axminster Tools & Machinery (Nuneaton)**

Saturday 12th October 10:00am - 4:00pm

Nuneaton Store - Chris Fisher - The Blind Woodturner

Chris Fisher, also known as the Blind Woodturner since he lost his sight in 2008, will be in-store covering lathes, chucks, jaws and turning tools.

You will be inspired by Chris as he shares his passion for woodturning. Chris constantly challenges himself, exceeding all expectations and demonstrating how seemingly insurmountable obstacles can be overcome through tenacity and self-belief.

Join us for a demonstration not to be missed as Chris puts his unique spin on the craft of woodturning.

Saturday 26th October 10:00am - 2:00pm

Nuneaton Store - Craft Pen Turning Lathes, Kits and Blanks

In this national store demonstration, we'll introduce novices and more experienced woodturners to the lathes, tools and techniques you'll need to begin turning your own pens. With a choice of many wood and resin blanks, pen kits and finishes now available in store, the creative possibilities are almost endless.

During the demonstration, we'll cover blank preparation and mounting, tool selection and use, design considerations, shaping and finishing. Our store specialist will share sufficient practical guidance to enable you to make a start on pen turning almost immediately.

Remember, if you buy any Craft lathe, we'll provide you with a free three-hour introduction to woodturning with one of our team specialists. For this demonstration, we recommend joining us at the start and staying through to the close to make sure you get the full benefit of each stage of instruction.

Website: <https://www.axminster.co.uk/stores/nuneaton/>

Full details of all our events can be found on the Axminster web page.

As always all the events are free to attend.

Jade Haywood (Store Manager)

HAMLET TURNING TOOLS

If your preference for turning tools is Hamlet, then you will be pleased to know that these very fine quality tools can be purchased through our very own club member, Eric Taylor. All tools displayed in the catalogue can be supplied.

Ring: Eric Taylor on 02476 328831
