Guest:

Ed Wozniak asked how council felt about the township building going on the back of their property. Wozniak stated he is not sure it should be that close to downtown, he is also concerned about the salt being that close to the river. Opelt stated that he thinks the township maybe trying to slide this levy in at the last minute so residents will think it is a EMS or Fire Levy, since they usually pass. Opelt stated he will be voting no as they have given no information as to the cost per voter. Bailey thinks these points are well taken and stated she will need to seek out more information. Angel tends to vote no on things when he is not informed. Yaniga thanked Wozniak for the information and she will also be checking into it.

Gene Steele wanted to know if council was able to obtain the phone number he requested to help get stray cats removed. Currently he has about 15. Steele was given the name of an organization to contact.

Steele thanks Long for his report on the survey for the park and stated he will wait on any further discussion until quotes are received.

Steele mentioned the pool diving board and doesn't want council to do the usual waiting until the last minute to decide what they are going to do about it. Mayor stated there would be a report made at the next meeting regarding the diving board and what the options are.

Jordan Haynes asked if the township ever asked to come to a council meeting to discuss the new building. Opelt replied, no, not yet. Long stated they had come to the BPA meeting to discuss it.

Haynes stated that he called Wood County Engineers office and was told there are no plans to fix it at this point. Haynes stated he would go to the media to bring attention to this matter. Council stated to Haynes they have no control over Wood County. Haynes stated that he is afraid Wood County is going to turn the bridges maintenance over to the village and then what will happen. We do not have money to repair them. Haynes asked if Wood County wants the village to take them, can the village refuse. Opelt stated this was brought up in the past and Mike Marsh stated we, the village, could not refuse. Discussion ensued.

Mayor Bowman adjourned the meeting at 8:15 pm.
