Complete GECKO Professional Audio Solutions Installed In Melaka Manipal Medical College

9th Floor L-Theatre

Malaysia: The Melaka Manipal Medical College (MMMC) was conceived to be in line with the government's objective of making the country a leading educational hub in the region and to provide more Malaysians the opportunity to achieve their aspirations of becoming doctors and healthcare professionals. The College was inaugurated by former Prime Minister, Tun Dr. Mahathir Mohamad on 17 July 2001, and the MMC is the first Indo-Malaysian joint venture in private (professional) medical education and was established with the full support of the Ministry of Education and Ministry of Health. In line with the college vision to be a world class educational centre, MMC has continued in its pursuit to provide quality programs and services of an international standard.

Integrity check for the Final Acceptance Certification

GECKO REVELATION SR 615RF
Semi-Clustered Array

2nd Floor M-Theatre A

MMC had looked at various high end systems from other vendors, but chose the Malaysia based audio manufacturer **GECKO® Professional Audio** as the only trusted audio company to provide a reliable solution for all MMC lecture theaters and classrooms. GECKO's responsibility was to design, supply and install the sound reinforcement system that would individually suit the many lecture theatres and classrooms in the College.

GECKO Music Group Director Daniel Foo who is also the company's Head of R&D, worked with the GECKO solutions team to decide which of their products would deliver the optimum sound reinforcement for each room. The final choice was to use **REVELATION SR 606R 6.5"** and **SR 615RF 15"** Long-Throw Loudspeakers which are driven by **GENESIS AG 300H** and **AG 600** Class H Power Amplifiers. The audio racks (one for each theatre) are designed as easy to use portable systems and incorporate a **EXODUS MXR 1604DSP** 16-Channel Mixing Console; a set of **PASSION MP 621** and its **RP 211U** Dual Wireless Handheld Microphones Systems; **GALILEE PSC 8220**

Audio rack for the 2nd Floor Theatres

EXODUS MXR 1604DSP 16 Channel Mixer

Power Sequencer, and an **AYERS ROCK DI 200P** Dual Channel Passive DI unit. The audio racks for the 8th and 9th floor rooms include an additional **DESTINY EQ 7043** Graphic Equalizer and **ETERNITY CMP 2408** Compressor/

Gate unit. For the complete installation, GECKO also utilised their **TRUTH T3AL** Signal Cable, **TRUTH T2** Speaker Cable, and **OLYMPIAN** Connectors.
