ERGONOMY

**DESIGNED FOR YOUR ADVENTURE**

**Orthopedic bag** with enhanced back system made of mesh and rigid bottom assisting to proper weight distribution. Protects back and provides maximum flexibility when in motion even when bag is on user's back. No challenge can stand in the way of your Ninja on the way to school!

The unique method of the trolley attachment to the back of the bag avoids discomfort when carrying bag. The trolley handle is tucked in a hidden opening and has no contact with the child's back while carrying. Trolley is available for purchase separately.

Look for this symbol in the catalogue

#### Connection of trolley is simple and short:

- 1 Slide trolley pole inside opening on back of bag. The telescopic pole is made of light, hi-quality aluminum.
- 2 The smart connector stitched on bottom of bag connects to bottom of trolley system.
