+GST

\*Offer ends 28 February 2021, while stocks last.

HCGWP Pump for 15lt Drum \$23.00 +gst

## KRAFTFORM TURBO SCREW DRIVER

BWKTS

The construction of the Kraftform Turbo allows a quadruplication of the speed when manually screwdriving, especially with metric threads — purely mechanically, without electricity! The robust steel design is maintenance-free and ensures a long product life.

The Turbo function can either be switched on or off by pressing a button. For initial loosening and final tightening (or fine torque adjustment) of screws the Turbo function is disabled. For free running screws the Turbo function is enabled.

**\$79.00**  
+GST

**FREE**
