PERMISSION GIVEN BY DAVID VANES

I applied for a CITB course in December unfortunately I did not immediately attempt to do my health and safety course. When I was offered a job pending my CSCS card I was in the unfortunate position that lockdown had commenced so all face to face training was no longer available. I was advised to get in touch with job change which I did and was directed to a course that could be done online and would be acceptable until lock down was lifted and I would then be fast tracked for a day course. The course took about 6 hours to complete and there was a certificate at the end which I could print off. My intended employer was happy for me to start work with the evidence of my completed CITB course and my completed health and safety awareness course. This allowed me to start work immediately which was of great importance to me if not I would still be waiting now for lockdown to finish and for me to do the one day course. Thank you job change you are greatly appreciated and have got me back into work.

Many thanks David Vanes

GOOD NEWS STORIES

PERMISSION GIVEN BY PAUL BONNAS

Paul found himself due to personal reasons far from his home town in London. He was using a CV that was 20 years old to try and secure employment with no success. After trying for a month or more he called the National Careers Service and made an appointment to attend Jobchange. On meeting Paul he had obviously already made a big change to his life and he knew the only way to move on would be to gain employment to help him stand on his own two feet once again. With grown up children and living in a new strange town he felt it was almost impossible.

We looked over Paul's CV made some changes and got the CV updated, we completed a skills health check, as he had indicated he had experience of working on the railways and wondered if he could use this experience again.

We found several opportunities for Paul to apply for and he did. Paul is very happy in his new job role and now finds himself working as a key-worker in such unprecedented times, he feels he makes everyone's day better when they get on his trams and he is always there to support and brighten up anyone who has had a bad day.

A message from Paul! " please use my story it may inspire others, keep up the good work, bless you all and thanks again".
