

Replacement Wind Cone WCS/PRO

Designed for installation on windsocks for visual determination of the wind direction.

It has the shape of a truncated cone with alternating red-white transverse stripes.

It is attached to the windsock frame (supplied separately) using cable clamps (included).

The cone is made of non-flammable, windproof, water-resistant, Dominic nylon fabric (30D SKY DIVE-SS). The edge under the grommets is reinforced with a strong tape.

Specifications

Article	Length L (cm/ft)	Aperture Din (cm/in)	Application	Compliance	Packaging size & weight
WCS100/PRO	100/3½'	50/20"	Airstrips	GOST 25269-82	265x205x35 mm 180 g
WCS120/PRO	120/4'	30/12"	Helidecks	ICAO, Volume 2 Annex 14	265x205x35 mm 160 g
WCS150/PRO	150/5'	50/20"	Industrial objects	Safety reglaments	265x205x35 mm 230 g
WCS240/PRO	240/8'	60/24"	Helipads	ICAO, Volume 2 Annex 14	265x205x70 mm 325 g
WCS360/PRO	360/12'	90/36"	Airports	ICAO, Volume 2 Annex 14	265x205x70 mm 1500 g

Color: red-white transverse stripes.

Conditions of use:

- Temperature: -50C/-58F to +50C/ 122F
- Wind speed up to 25 m/s / 55mph

Guarantee: 12 months
