Add your interests. It's true that there are lots of similarities between the book and the movie, but you wouldn't even notice it. I personally read the book after I watched the movie and at some points while reading it didn't felt like a book and some where you wouldn't even tell that the book was written based on the script. The reas Surprisingly Beautiful Usually I do not read books made after movies, but this case was a special one. The reason why I gave it four stars is because it was written based on the script, otherwise thre would've been 5. Tip, if you haven't watched the movie, read the book first.

It's beautiful anyway, but it gives you another kind of joy if you haven't watched the movie. A fitting end! What else can I say, I loved the conclusion to their story. I especially liked that the end leaves you to sew your own seeds about their happily ever after. I think you can also really see the growth in Beth's writing too. The first book to now has shown a lot of growth, improvement and language knowledge. The first book I could tell easily a British person had written it as a lot of British-isms were present although it was meant to be set in the US. I loved the bucket list, it A fitting end!

I loved the bucket list, it I loved that I felt it was a growth from the books to the movies with a more combined flow. I liked the little parts however such as Levi being himself and not to Mario of the film. I really enjoyed this journey with Elle, Lee, Noah and the gang. View 2 comments. I think I give this book 2. I quite like The Kissing Booth stories. They are sweet and easy to read. But like the movie this was quite disappointing. There is a bittersweet element to it about the pain of growing up and that big step between leaving your childhood behind and moving forward to your adulthood.

Yet, nothing much happened in the book. All the characters, apart from Noah, were pretty whiny. And I just felt that if they all talked about how they were feeling then all their pro I think I give this book 2. And I just felt that if they all talked about how they were feeling then all their problems would be resolved. Having said that it was quite sweet and it was nice to find out what happens to Noah, Elle, Lee and Rachel.

Sep 06, Katie Downing rated it liked it. I saw the movie the day it arrived on Netflix and I was finally able to order and read the book. One Last Time wraps up the Kissing Booth trilogy. The summer hits her with surprise after surprise as she makes decisions about her future. I actually quite enjoyed this book. There were some great romantic moments between Elle and Noah and some nice friendship moments between Elle and Lee, as wel I saw the movie the day it arrived on Netflix and I was finally able to order and read the book. There were some great romantic moments between Elle and Noah and some nice friendship moments between Elle and Lee, as well as Elle and various other characters.

My favorite part of the book was the character growth and growing up that Elle experiences. Although the book had a bittersweet ending it was also a much more mature ending than I expected. Sep 07, Jess Wadey rated it really liked it. Overall, this book did a really good job of completing the story. It was definitely much better than the film, some of the extra detail and scenes really added some layers to the story making it even more compelling. It was, in my opinion, a more realistic ending that suits slightly older readers. Levi really adds another dynamic to the story and has done ever since he was introduced in book 2. This book is much more focused on Elle and her own journey growing up which I think is a great way to Overall, this book did a really good job of completing the story.

This book is much more focused on Elle and her own journey growing up which I think is a great way to finish the Kissing Booth franchise. I would recommend all of the books to everyone, especially those that love YA and a high school romance! Sep 08, Nicole rated it it was amazing. I was sad when Noah and Elle broke up but at least they were still talking. I loved how everything turned out at the end including the beach house and Elle with her college choice something for her.

Plus the relationship that Lee and Rachel had for 6yrs and then getting engaged sounds like my relationship with my boyfriend. All in all it was a good book and I'm happy with the ending even though the break up made me teary eyed while reading I was sad when Noah and Elle broke up but at least they were still talking. All in all it was a good book and I'm happy with the ending even though the break up made me teary eyed while reading Also big news the Flynn's are selling the beach house! As a last attempt for an unforgettable summer Elle, Lee, Noah, and Rachel agree to stay at the house and help get it ready to sell.

Not to mention Elle and Lee find their childhood bucketlist of summer activities to do before college. This is going to be a summer that no one will forget. Sep 19, Erica Beattie rated it liked it. I do prefer the movie, but the book had just enough small differences to still make it a fun read. For another book in the series, pretty decent. Well, I can see the maturity since the first book. When Elle, was struggling with keeping her schedule and forgetting events, you think she would of taken more precautions to prevent this for happening. Like getting a planner. Aug 30, Cathy rated it liked it. Mar 09, Vedika Somani added it. Nice book. Apr 19, Cristine Sanguyo rated it it was amazing.

Rated it. The Kissing Booth first debuted on Netflix back in May and made the world collectively feel like a teenager again. From secret crushes to lifelong friendships being put to the test, it was impossible not to immerse ourselves in some good old-fashioned high school drama. However, like so many other adaptations that have come before it, The Kissing Booth movies have strayed from their book counterparts in significant ways. Such is the case for The Kissing Booth saga. Back in September , Reekles confirmed via Instagram that a third novel, titled The Kissing Booth 3: One Last Time , was officially underway and would be released at the same time as the movie.

View this post on Instagram. And in a reversal of roles, the final Kissing Booth book is actually based on the script for the third film. I will tell you

after. If any of you agree with me just do some poll or write this same thing in your review or just View all 10 comments. Once again, the story was told in a beautiful way, we really feel the emotions of each of the characters, and got to say goodbye to something that was part of their lives, which someone has become part of ours too. Sep 12, Morgan Fries rated it it was amazing. This review has been hidden because it contains spoilers. To view it, click here. Thank God it ended better than the movie. I have grown such an attachment to this series - books and films. Beth, you have really changed my life since I found you and The Kissing Booth series. As always, Elle is a wonderful protagonist and Lee is such a hilarious and caring friend that anybody would want for a best friend! I loved the beach house novella due to the summer feels, so I definitely loved them being at the beach house in this one!

And the summer bucket list is such a cute extra to this book!! I wished I had thought of making a summer bucket list when I was younger. Aug 25, maria added it. Aug 07, Becca da Romance Queen marked it as to-read. I have not read this yet but obvi need to!!! The kissing booth is one of my favorite books and movies and I saw the trailer on Netflix and cannot wait to read the book!!!

But first must read Going The Distance ;. But the book was better! Please note: while this will not contain spoilers for The Kissing Booth 3: One Last Time, it may contain spoilers for the previous books in the series. One Last Time picks up as the summer after graduation begins. Devastated, Noah, Lee, and Elle decide to spend the summer there one last time. While cle 3. This book had a bittersweet feeling to it the whole time. A lot of the time, you can see all the characters trying to cling to the past, make one last memory to go with all their childhood ones. As I read, sometimes I felt bad for all the characters, but sometimes I was really annoyed by them. Change is hard, and it can cause a lot of rifts between people. It made me sad to see them appearing, but change is inevitable.

Though I like Elle and her relationship with the Flynn family, I felt like it started to go stagnant in this book. It made it hard to read sometimes, all the conflict, but it also was realistic in that way. Things are rarely perfect. I found myself liking the ending. Things will change, but not everything. Some things will always be there, and I think that is shown perfectly. Beth Reekles has grown so much as an author over her time writing The Kissing Booth. I feel like the series as a whole, the journey of Elle and everyone, somewhat mirrors hers. She started out young, grew and changed, and this book is an end to an era. Now, she can look back fondly at the growth and change she went through as an author. Sep 13, PoisedPaperbacks rated it liked it. I was so excited to get my hands on this book, especially since I had enjoyed the rest of the series! One of the things I loved most about this book is that it really gave insight into Elle as a person and how she felt in debt to both Noah and Lee.

I was also a fan of how the story incorporated very common and real concerns of people the same age as Elle like choosing college and balancing working at the same time. One thing I did notice was the growth in Reekles writing from the first Kissing B I was so excited to get my hands on this book, especially since I had enjoyed the rest of the series! One thing I did notice was the growth in Reekles writing from the first Kissing Booth book, and its incredibly amazing the journey the Kissing Booth has been on since first being published on Wattpad.

Majority of the content of the book is the same as that of the movie, but again the book does provide a lot more detail than the film and it extremely well written. I loved how there was no definite ending to the story and that its not confirmed on whether Noah and Elle are together. It is extremely cliche for a happily ever after in romance, and I love how the ending has been left open to interpretation. However I do strongly recommend this book, especially if you are a fan of the movies as it allows you to see the plot and characters in a whole new light. This book was probably the best ending I could have seen for this trio. Although I was sad to see this series come to an end, it was beautifully written like 1 and 2 and once again, I could not put it down.

I also have to comment on that ending…. One of my favorite things an author can do is leave an open ending for the reader to interpret it however they want to. Beth Reekles is officially one of my heroes for letting us, the readers, fully decide if that date Noah an This book was probably the best ending I could have seen for this trio. Beth Reekles is officially one of my heroes for letting us, the readers, fully decide if that date Noah and Elle have planned will lead to anything else.

BTW, in my world, Noah and Elle find yet another way to make it work after getting dinner the night of the Spring Carnival. Surprisingly Beautiful Usually I do not read books made after movies, but this case was a special one. I feel in love with Elle's,Lee's and Noah's story that I just couldn't help it. It's true that there are lots of similarities between the book and the movie, but you wouldn't even notice it. I personally read the book after I watched the movie and at some points while reading it didn't felt like a book and some where you wouldn't even tell that the book was written based on the script. One Last Time (The Kissing Booth, #3) by Beth Reekles

Soon, Elle needs to make a difficult decision: go to Harvard to be with Noah or Berkeley as originally planned with Lee The gang come up with a plan to have one last summer at the beach house - to have the best summer ever. But with change looming on the horizon, Elle can't help but wonder what she really wants in life. And whether what she really wants matches up with her and Noah's plans for their future together Beth Reekles. Beth Reekles is seventeen years old and lives in South Wales. She's an undeniable bookworm and an avid drinker of tea. And in a reversal of roles, the final Kissing Booth book is actually based on the script for the third film. I will tell you I really hope you guys love it, too. Instead, she enrolled at the University of Southern California USC for video game design, allowing her to finally focus on her own desires and ambitions rather than trying to appease everyone else around her. Few words were spoken and they both went their separate ways for the time being, though the spark was still there, indicating that a rekindled romance could very well be on the horizon.

The journey to that point may look a little different — in the books, Elle never even applied to Harvard and simply got accepted to Berkeley — but the end will most likely arrive at the same place. The prestigious awards show is usually how Hollywood gauges the best of the best of the most. Favorite 3. It started with a kiss. It ends with a chance to rewrite the rules. For one last time, join Elle, Noah, Lee and all your favourite Kissing Booth characters for the conclusion to this incredible romantic story!
