We create a Watch Later Collection automatically for every logged-in user! Porn that is "Popular with Women" is catered specifically to women's interests, and is marketed towards women, rather than simply being about what XXX content women want to watch. Studies have shown that a significant number of women watch porn regularly, even on a daily basis. There seems to be a large market for XXX content made by female producers. Also, with women being more comfortable expressing their desires, more statistics have shown that women enjoy watching more kinky sex videos with elements of BDSM, rough sex, threesomes, cosplay, and even lesbian scenes.
