ON THE FURLOUGH TRAIL

During the month of August, I had the privilege of traveling and visiting churches in Kansas, Texas, Louisiana, Florida, Alabama, South Carolina, and North Carolina. What a blessing it was to report to our sponsoring churches, as well as visit some new churches. They surely were a blessing to us. Unfortunately, Antonia was not able to travel with me, since she stayed back in Texas to help Stacy get moved into the dorm and Keila get ready for her big day. I truly believe in the importance and blessing of missionary families and couples traveling together when at all possible. Nevertheless, it was a blessed trip. I pray that I was able to be a blessing to the churches I was in, and I am grateful for the hospitality and generosity of the churches and families who hosted me during my travels.

In September Antonia and I traveled together in the states of Texas, New Mexico, Oklahoma, and Colorado. What a blessing that has been! Again, the churches have been a tremendous blessing to us! Please pray that God will raise up some much needed new support from the new churches we have visited, if He wills it!

I have a special **prayer request** that I would ask you to pray about. During my routine exams this last month, a CT scan showed two small lesions on my lungs. I am currently seeking the advice of a pulmonologist to see where we should go from here. We are currently keeping our travel schedule, but are aware that things may change depending on the counsel of the doctors. **Please pray** that God will be glorified in our lives, heal as He sees fit, and give us grace and peace as we wait on His will to be done!

MEANWHILE BACK IN TEXAS...

On September 19, our daughter Keila was married to Micah Moos in a beautiful ceremony at a garden venue. She was such a beautiful bride, and while Antonia and I held back the tears (well, some of them anyway), I had the privilege of entrusting our daughter to a good Christian man. Please pray for them as they start their lives together, that they will serve the Lord all their lives.

Stacy is now enrolled at the Criswell Bible College in downtown Dallas and living in their dorms. She is doing well and loving her life and studies there. She still works on weekends at Six Flags, but will be looking for a better job a little closer to where she lives. Please pray for her protection as she drives to work and church in Arlington, a good distance away. Pray also that she will seek God's face and His will as given in His precious Word.

"To open their eyes, and to turn them from darkness to light, and from the power of Satan unto God..." Acts 26:18a
